Education

BHA: Music Technology and Hispanic Studies

05/2026

Carnegie Mellon University | Pittsburgh, PA

- Phi Beta Kappa Inductee
- 3.78 GPA, University Honors, College Honors
- *Relevant Coursework*: Concepts of Mathematics, Fundamentals of Programming and Computer Science, Introduction to Data Structures, Principles of Computing, Reasoning with Data, Nature of Reason
- Vice President of The Originals A Cappella
- Languages: English (Fluent), Spanish (Fluent)

Work History

Pianist

11/2022 - 02/2026

Mansions on Fifth Luxury Hotel | Pittsburgh, PA

- Performed live piano for guests in lobby.

Research Fellow

05/2025 - 08/2025

Carnegie Mellon University | Pittsburgh, PA

- Conducted research in improvisational composition and reharmonization, investigating the acquisition of music as a language.
- Composed, performed, and produced a fully improvised, seven-movement piano suite as the centerpiece of the research.
- Independently performed all mixing and mastering engineering for the recorded suite.
- Listen: youtu.be/7EuehU9jKHM

Software Engineer Intern

05/2024 - 08/2024

Gamma Technologies LLC | TA Associates, Insight Partners portfolio company, Westmont IL

A physics-based engineering software solution serving automotive, energy, and data center industries

- Improved and optimized GUI components across the Gamma suite as a member of the GUI team.
- Debugged and troubleshot Java application issues across the Gamma technology stack — sophisticated Java applications, a custom distributed-computing solution, 3D graphics tooling, and high-performance data storage.
- Validated and edited technical documentation.

Projects

Each project below is presented as an interactive case study at davisonbaldwin.github.io.

"Rest My Soul" — Multitracked Choral Video, set in an Infinite 3D Environment

- Composed, performed, and self-recorded all vocal parts of a one-man choir piece, then directed video recording and editing within a custom infinite 3D environment.
- Coordinated post-production with a recording engineer and mixing engineer to bring the final piece to fruition.
- Watch: youtu.be/ZdAaofDbIfM

"Life's Meaning" — Original Composition & Animated Music Video

- Composed the music and lyrics; performed all vocals and played all instruments.
- Collaborated with a mixing/mastering engineer to produce the final master.
- Partnered with an animation engineer to create a fully realized animated music video.
- Watch: youtu.be/ReZqGoQX8L8

"Time to Fly" — Music Video Production & Creative Team Leadership

- Assembled, directed, and managed a six-person production team — principal videographer, associate videographer, choreographer, two dancers, and a costume designer — to deliver a professional music video.
- Composed the music and lyrics; performed all vocals and played all instrumentation.
- Collaborated with a mixing/mastering engineer to produce the final master.
- Watch: youtu.be/DjS9_ySJsoE

"Supernova Cloud" — Freely Composed Electric Piano Album

- Furthered initial research into the acquisition of music as a language with an electric piano album based on polytonality, improvised entirely in the moment.
- Partnered with an animation engineer to create a dynamic world-building video depicting the transformation of a planet over time.
- Watch: youtu.be/kCEebpCXbYA
