Music tech portfolio: davisonbaldwin.github.io/music

Education

BHA, Music Technology and Hispanic Studies 05/2026
Carnegie Mellon University | Pittsburgh, PA

- Phi Beta Kappa Inductee
- 3.78 GPA, University Honors, College Honors
- *Relevant Coursework*: Multitrack Recording, Sound Editing and Mastering, Sound Recording, Independent Study in Studio Recording Project, Concepts of Mathematics, Fundamentals of Programming and Computer Science
- Composer, engineer, and performer, Davis Baldwin Productions
- Vice President of The Originals A Cappella
- Languages: English (Fluent), Spanish (Fluent)

Work History

Product Operations Analyst 08/2026 - Present
Lightspeed Systems | Austin, TX

- Maintain and improve the product analytics platform across all products through better tagging practices, stronger selectors, and tags set up with engineering from the start.
- Build in-house tools for the product team with Claude Code.
- Automate workflows to reduce manual work.

Research Fellow 05/2025 - 08/2025
Carnegie Mellon University | Pittsburgh, PA

- Conducted research in improvisational composition and reharmonization, investigating the acquisition of music as a language.
- Composed, performed, and produced a fully improvised, seven-movement piano suite as the centerpiece of the research.
- Independently performed all mixing and mastering engineering for the recorded suite.
- Listen: youtu.be/7EuehU9jKHM

Software Engineer Intern 05/2024 - 08/2024
Gamma Technologies LLC | TA Associates, Insight Partners portfolio company, Westmont IL
A physics-based engineering software solution serving automotive, energy, and data center industries

- Improved and optimized GUI components across the Gamma suite as a member of the GUI team.
- Debugged and troubleshooted Java application issues across the Gamma technology stack: sophisticated Java applications, a custom distributed-computing solution, 3D graphics tooling, and high-performance data storage.

Music Technology

"Sometimes in the World" · Pop-Orchestral Ballad Scored with Software Instruments

- Composed the music and lyrics; performed lead vocals and piano, and played all software instruments.
- Arranged and produced a full orchestra around a single lead vocal, writing the string section part by part in Cinematic Studio Strings.
- Delivered the final master with a mixing and mastering engineer.
- Edited and animated the music video.
- Watch: davisonbaldwin.github.io/music/#sometimes-in-the-world

"Rest My Soul" · Multitracked Choral Video in an Infinite 3D Environment

- Composed an original piece for one-man choir; performed and self-recorded every vocal part, building the full choir from layered vocal tracks.
- Directed the video shoot and edit, placing the choir within a custom infinite 3D environment.
- Coordinated post-production with a recording engineer and a mixing engineer through final delivery.
- Watch: davisonbaldwin.github.io/music/#rest-my-soul

"You Won't Love Me Back" · Song and Film for Voice, Piano, and String Trio

- Composed the music and lyrics; performed vocals and piano; orchestrated the string trio for violin and cello.
- Served as artistic director for the companion film with a principal videographer and editor, concept to final cut.
- Delivered the final master in collaboration with a mixing and mastering engineer.
